Abstract: Meridian patch therapy was applied to a 55-year-old female patient, suffering from rheumatoid arthritis. The patient could not continue to take anti-rheumatic drugs due to their side effects. The outflow of Ki from the thymus to the synovia and joint was excessive. Jinpi patch to points corresponding to the thymus could control the outflow of Ki from thymus, and was an effective therapy to relieve her arthritis.

Key words: Meridian patch therapy, (KEIRAKU TENYAKU CHIRYOU), Rheumatoid Arthritis, Thymus
