### PAIN AND KAMPO MEDICINE Vol.13 (2003)

#### A case of intractable pain in the submandibular and lateral cervical region after infraauricular abscess resection

Akimune Hayashi\*

**Abstract:** The author report on a patient suffering from intractable pain in the submandibular, lateral cervical and anterior thoracic region after surgical extirpation of the left infraauricular abscess. Satellite ganglion block was somewhat effective but not satisfactory. The following Kampo prescriptions combined with a muscle relaxant were successful in resolving the pain satisfactorily: Toki-shigyaku-ka-gosyuyu-syokyo-to (TJ-38) and Keishi-bukuryo-gan (TJ-25).

**Key words:** Intractable pain, Toki-shigyaku-ka-gosyuyu-syokyo-to (TJ-38), Keishi-bukuryo-gan (TJ-25)
