痛みに対する竹筎温胆湯と甘麦大棗湯の応用

平田道彦*

要旨: 漢方によって痛みを治療する時,「気」に対する配慮は極めて重要である. 痛みの構成要素としての「気」の異常は西洋医学的には単に心理的要因と括られるが, 漢方ではきめ細かく分類され, それぞれに対処の方法が示されている. 「気」の異常を是正する気剤群の中で, 竹筎温胆湯と甘麦大棗湯は使用頻度こそ多くないが,「気」に対する特徴的な効能を持ち, 痛みの治療上なくてはならない方剤である.

索引用語:竹筎温胆湯,甘麦大棗湯,胆虚,臟燥

PAIN AND KAMPO MEDICINE Vol.29 (2019)

Distinctive Effects in the Treatment of Pain with Chikujountanto or Kanbakutaisoto Michihiko HIRATA *

Abstract: The conditioning of qi is one of the most important means for the treatment of pain. In western medicine, the abnormalities of qi are recognized simply as psychic or mentally malfunction. On the other hand, in traditional Japanese medicine, they are classified in detail and the methods of improvement for each problem are prepared. There are many formulas to normalize qi in traditional Japanese medicine, in which chikujountanto and kanbakutaisoto are not so frequently used. However, these formulas have distinctive effects and are indispensable for the treatment of pain.

Key words: chikujountanto, kanbakutaisoto, deficiency of gallbladder, hysteria

Offprint requests to: Michihiko HIRATA, Hirata Pain Clinic.
